1 Environmental Policy Statement

- 1.1 TLT LLP recognises its potential to impact the environment, positively or negatively, directly or indirectly, through its activities and services. We are committed to reducing the adverse environmental impact of the business and the size of our carbon footprint by implementing an environment management system containing the specific requirements of ISO 14001:2015.
- 1.2 This Environmental Policy Statement is aligned with the TLT LLP Carbon Reduction Plan.

2 Efforts to reduce our environmental impact

We are working to reduce the environmental impact of our own business activities, including through the use of sustainable energy and resources, pollution prevention and practicing sustainable procurement. The significant environmental impacts associated with the activities within the scope of our ISO 14001 Environmental Management System have informed our environmental focus and have shaped our commitments to:

- 2.1 The protection of the environment.
- 2.2 The prevention of pollution.
- 2.3 The continual improvement of our Environmental Management System to enhance our environmental performance.
- 2.4 The fulfilment of all environmental compliance obligations to which the business subscribes or is required to adhere to.

3 Our operational controls

In order to ensure that our commitments are met, TLT LLP aims to:

- 3.1 Increase efficiency and reduce energy consumption across our business wherever wastage is identified.
- 3.2 Publish targets for the improvement of our environmental performance and report progress against targets periodically.
- 3.3 Engage with clients, suppliers and community partners to discuss the environmental impact of their operations with a view to working in partnership to reducing consumption, emissions and wastage in the supply chain.
- 3.4 Raise awareness amongst staff of environmental issues and empower them to act both at work and in their local communities to identify and reduce their impact on the environment.
- 3.5 Manage the environmental impact of our business travel and promote the use of sustainable methods of transport.

This document is uncontrolled when printed

This policy statement will be reviewed on at least an annual basis to ensure that it continues to meet the needs of TLT LLP. This policy will be communicated to relevant stakeholders both proactively and upon request.
